Sub: Request for admission of my son in Science stream-reg.
Sir,

Namaste. I am to state that my son Kumar Deepak has passed out from class 10th during the last academic year 2011-12. It is learnt that without discussing with us and elders, he got himself admitted in commerce stream and now he is regretting for the mistake committed. He does not want to undergo commerce and is eager to study in science stream for his better future.

It is requested to kindly consider the case sympathetically and admit in science stream in your esteemed school so that he can have a bright and brilliant future. Your valuable assistance to build the career of my son is highly solicited.

Yours faithfully
