

Sir, Due this type of regular misactivities by the JARAWAS making myself and the villagers under mental dipression. It is to inform your good self that I am a senior citizen engaging labour for the plantation expensed more of money. But the yielding time the JARAWAS are collecting entire thing is very much disturbing us both menatally and physically. The misactivities of Jarawa may kindly be stopped, by the way whenever they are shifting from Jirkatang to Tirur viz never stop and withdraw them between these public residential area. So that they are not doing this misactivities. If the same activities will continue we will face heavy loss and pull us into the sucide condition. It is also ifrom you that the plantation dependent labour families livelihood is may affect. So the loss of Plantation products may compensate to me.

It is to request your good self may kindly take an aproprate action inthis regard enabling us to form the plantation peacefully. This is for your kind information and necessary immediate action please.

Thanking you sir,

Yours faithfully,
