

Submitted that information have been received informally from the Police Radio that the Great Andamanese settlement of Strait Island and Onge Settlement Dugong Creek and South Bay has been affected by the Earthquake and tidal waves.

The ration and eatable items available with the Primitive Tribes has been washed out and there is no stock of ration items. Such being the case, it is proposed that we may immediately procure some ration articles and make arrangements to transport it to Strait Island.

Similarly, we may send signals to our In0charges at Shompen Hut Complex, Campbell Bay, Dugong Creek, South Bay, Kadamtala and Strait Island to give details of losses and the latest position please.

Executive Secretary
AAJVS
