After the completion of the intermediate shelters for the Tsunami victims, in these islands, the main focus is now on the issue of livelihood and employment generation. There are numerous schemes relating to employment generation being implemented by various Departments. It seems that there is lack of coordination in the implementation of many schemes, sometimes leading to overlapping of activities.

In view of the above, the Development Commissioner will be responsible for monitoring the implementation of various employment generation schemes in the islands, and also to ensure that proper data is regularly collected on the subject.

It is suggested that a detailed annual action plan, on the subject be prepared by each of the Secretaries/HoDs, and the same be compiled and prepared as a common document.

All the Secretaries and HoDs should prepare the requisite action plan and submit the same to the Development Commissioner.

(D.S. Negi)
Chief Secretary
17.5.2005.

Development Commissioner

Copy to all Secretaries/HoDs for necessary action.
