

P.U.C. Sl. No. 74/c

(53)

Signal received from Asst. Engineer APWD Havelock, regarding their visit to Strait Island (Post Tsunami).

(54)

The Asst. Engineer inform that all the Great Andamanese Houses and Govt. quarter were found broken, Pump set for water supply and Elect. motor are found missing. Further to start the well (drinking water) works, permission is to obtained for 10 labourers for one month to stay at S/Island.

(55)

It is proposed that we may request to APWD H/Look to carry out the work as far as drinking water is concern, if approved

(56).

Submitted Pl.
for 24/2/04. Can H/Look give any permission as asked to.
- Pl. ascertain from RO (S) whether any action was initiated for drinking water. I was told that they will pursue it.
