PUC at page 104 /C. This a copy of letter from the Executive Engineer, Electricity department, Port Blair stating that 2 Generators are ready for shipment to Strait Island and they have requested them to provide a cargo vessel for the above shipment.

The Executive Engineer has requested to make arrangements of a room where these sets can be installed. The room sheds could be constructed next to NRSE building where land is available. The old power house building cannot be used as during high tide the power house building get flooded.

It is therefore proposed that we may request Executive Engineer, CD-II, Port Blair to construct a building for installing the diesel generator set next to the Solar Plant. Accordingly, a draft letter is placed opposite for approval please.

Executive Secretary

22/12/14

we need electricity supply system on arrival of Antarna AAVS to S/Sicut. They want to ship 2 sets of 10 K.V.A. 24 sets immediately for which the letter is written.

we may request DSES to provide cargo vessels for shipment immediately. Matter was discussed by Mr. Ch. Phun with DSES. He is deep needed. Mr. G. S. will advise for installation with the existing available/available place in J. PC perhaps letter address to DSES at the present.
