In this context, it is mentioned that National Commission for O.B.C. is scheduled to be on tour to these island from 20/07/05 to 23/07/05. The Director (TW) would be pre-occupied with the Commission during this period. Soon after the departure of the Commission, the team of the officers may proceed to Strait Island.

183

Therefore, it is proposed that the Director (TW), Engineers of APWD & Electricity may proceed to Strait Island on 25/07/05 in the early morning and after consultation with the Andamanese, they can return to Port Blair the same day. For this, we may request the Director (Shipping Service) to deploy M.V. Shompen (Boat primarily meant for T.W. activities) or any other suitable vessel.

Secretary (TW)

Visit is approved. However deploying a special vessel for 3 officers would not be proper. Can't we do this through the regular boats? In case it is not possible then of course a special boat can be asked for.
