223 The Social Worker, Onge Settlement, had sent a signal placed at page 203/C, stating that he had discussed with the Assistant Engineer, Electricity department regarding installation of portable generator set at Dugong Creek, which would be done within 2-3 days. Assistant Engineer has suggested that CFL lamp can be used instead of ordinary lamp for better performance of the generator set. Social Worker, had requested to provide at least 50 nos. of CFL with all accessories and 500 meters of wire for providing temporary electrification to the **Onges Old Hut.**

224 The cost of one CFL lamp of 20 Watt and its holder is Rs.305/- as informed by Manager, CCWS Ltd. 500 Meter wire would cost Rs.4000/-. Other accessories and fitting charges would cost approximately Rs.5000/-. Therefore, the total cost would come to approximately Rs.24,250/-. Or say Rs.25,000/-

225 Traditional Onge huts is under construction. 22 houses have been completed as informed by Social Worker vide signal dated 9/9/2005. Copy placed at page 205/C, 19 traditional Onges houses are yet to be constructed, which may take at least 1 more month.

226 Most of the Onges are staying in their old houses at Dugong Creek which we have observed ~~seen~~ during our last visit. During that time Onges demanded for electrification in their old huts.

227 Secondly, the Social Worker, Dugong Creek informed vide his signal dated 30.8.2005, placed at page 204/C that the residential quarters of Govt. employees at Dugong Creek are being repaired and will be completed within 15 days.
