Pornographic videos of tribal girls circulated in the city- Administration caught napping

Port Blair, Oct 23 : Shocking pornographic videos involving tribal girls are being circulated in Port Blair area by some unscrupulous elements. The video reveals that the Nicobari girls are sexually abused and the same is recorded and sold in the open market. It is easily available in CD Shops across the city.

Some video shows the name of the School and in some other the name Andaman figures, which seems to be a purposeful act to defame the island and the island community. Innocent tribal girls are sexually abused and the video circulated in the market, but the intelligence agencies pretend to be ignorant. Sources within the

police department reveal that the authorities are well aware of this fact, but are reluctant to act to avoid embarrassing situation. The video clearly shows the face of the person involved in this act. This shows that they have no fear for the law of the land. Apart from tribal girls, these videos

reveal that many local school students are also exploited. Sources reveal that many school students have these clippings in their mobile. Many carry it in their pendrives. This is being circulated among the students, which give rise to threatening trend. This is vitiating the school atmosphere. Seizure of mobiles of school students and raids on CD shops will reveal the truth.

Administration should order an impartial inquiry into this exploitation of Tribal girls before this matter ends up in the hands of private electronic media. Result of the last Jarawa tape incident is testimony to the embarrassment faced by AN Administration during that period. It is better to act before the name of the island is defamed at national and international level.
