F.No.1-752/2007-TW

(66)

C.S. had last seen this file at pg. 5/N.

(67)

The proposal ~~in this file~~ pertains to the declaration of a Buffer Zone of 5 Kms, circumfencing the Jarawa Tribal areas. This has been necessitated because of the tourism based construction and commercial activities that have been noticed at Collin Pur just outside the Jarawa tribal area. Since this location has no attraction about it other than the sighting of Jarawas, one can but conclude that this is the main objective of the developers who are now constructing a resort there.

(68)

In the General Body meeting of AAJVS on 17-08-2007 a decision had been taken to discourage all tourist activities around the Jarawa reserves. In this connection may see a copy of the minutes placed at page 23/C. Accordingly a notification has been prepared, duly vetted by the Law Department, to declare an area of 5 Kms. radius around Jarawa tribal reserve as a Buffer Zone in which commercial and tourist activities are prohibited.

(69)

The same may please be approved.
