The Forest Department has suggested to send a format in which they could obtain the reports from the concerned Divisional Forest Officer in the uniform manner and send a consolidated report to us relating to encroachment and poaching in the Jarawa territory.

Though no format has been worked out in the High Powered Committee it may be desirable to accept the suggestion of Forest Department. The format could be a simple one to incorporate all relevant details. In this regard a tentative format is worked out as under which could be intimated to the Forest Authority.

REPORT FOR THE MONTH OF _____
