Sub:-Report for inhuman treatment towards country
oldest primitive tribes "Jarwas" in Andaman
and Nicobar Islands - regarding.

Sir;

As you know better, there must not be any discrimination between them and us, within the purview of constitution, but it is very unfortunate, on visit not only foreign but also country and local tourists throw towards this primitive tribes of our country "jarwas", packed chicken biryani, idly, dosai, chitni, vadai, fry fish and vegetable. These hungry jarwas enjoy those edible items full of their belly instead of taking dirty raw banana and rotten coconut. But by the grace of God, they are still alive & no one has died till date.

Our report reveals: since 1994 jarwas are vagabond tribal in this island, as they had to run away from their abode, due to fear hunters, poachers (including intruders and traitors). They are roaming with naked body and empty belly in North and Middle Andaman jungle crossing Andaman Trunk road. They are crying for food and shelter and to safeguard their heredity from dooming.

Contd.2

Our fight to eradicate corruption from our tiny islands, our fight to nab corrupts in this islands, our fight for free, frank, neat, clean and transparent administration for the islands and islanders, our fight for complete stoppage of misuse of public funds and property, our fight for equal right and equal justice for each and every islanders including tribals, onges, jarwas.
