Further, ^{the proposal} was orally discussed with him today to ascertain the reason for change of specification proposed by us. He indicated that Intel Pentium II is the standard computer system available in the market now, so we should go for that only instead of any other specification. It is therefore proposed that the proposal for purchase of a computer system with accessories for OBE Commission may please be approved. The estimated cost for the above system will be Rs. 1,47,000/-

- The availability of fund under Annual Plan 1988-89 is indicated at para 3/iv.
