Department of Tribal Welfare
& N Administration

~~SL 20/98 / 1132~~

The desalination plant installed at Chowra to meet the drinking water need of the tribals is running smoothly. Besides, a well has been dug for the first time at Chowra, which is stated to be yielding a good amount of water, and it shall be made available to tribals for drinking purpose. This would be very helpful for the peoples of Chowra, as such; the work on this may be speeded up.
