

quota since 1997. This judgment and order of Supreme Court will open the door for these poor migrated students.

(xii) In the case of the institutions controlled/administrated by the Union Territory benefits like scholarship, admission to educational institution etc. the benefit should be confined to the scheduled tribes/ scheduled caste of this union territory. 20% of seats ^{reserved for local STs} for the higher technical & non-technical education in the main land. The local tribals of A & N Islands cannot avail all the seats. Against the unavailed reserved seats for STs should be considered for the migrated tribes of this Islands because many of the seats are in the institutions controlled/ administrated by the Central Government.

(xiii) There would be no infraction of clause (4) of Article 16 of a Union Territory by virtue of its peculiar position being governed by the president as laid down in Article, Article 239 extends the benefit of reservation even to such migrant scheduled tribes who are not mentioned in schedule to the President Order / Brochure for such Union Territory the Supreme Court judgment of order says no legal infirmity can be ascribed to such a policy.
