

	Establishment of Biomass based copra Dryer as a demonstration unit.	<p>The Tribal Council will in consultation with DRDA identify a suitable location and complete the civil works for the copra dryer. The Electricity Department will provide the constructional drawings and within a month of completion of civil works establish the Biomass base Copra Dryer. The approximate cost of the plant shall be around Rs. 20,000/- which will be equally shared by DRDA and Electricity Department in the form of Civil Works (Walling & Roofing) and mechanical heating equipment, as a demonstration unit.</p> <p>Action : DC, C/N ; SE (Elect)</p>
Daring	DG Power supply to be provided	<p>The existing SPV power plant will be repaired and set-right and 12 Hrs./ day power supply will be provided in next 2-3 months, as it may not be possible to establish DG sets. Improved power supply will be provided from Kamorta power house, by existing over head HT lines, once the road is ready.</p> <p>Action : SE (Electricity)</p>
	DG Power House to be established at Bandhar Khari which is having about 25 house holds.	<p>The area was got inspected and it was observed that only 4 houses were at Bhandarkhari and 3 more are expected shortly. One or two houses were about 1 KM away. For such few house holds, it may not be feasible to establish a DG power house. However, the villagers were advised to purchase solar lanterns at subsidized cost of Rs. 1000/- each.</p> <p>Action : SE (Electricity)</p>
