PILOMILLOW	A permanent Jetty is to be constructed for use of passenger and cargo handling.	The location is well protected & safe for development of landing facility. DSS suggested that Jetty may be constructed to accommodate MV. Chowra type of vessels so that embarkation / disembarkation of passenger as well as cargo can be safely handled. ALHW will conduct necessary survey & investigation and submit proposals. <b>Action : CE, ALHW</b>
CAMPBELL BAY	Deep Water wharf required at Campbell Bay to accommodate Mainland going vessels in side harbour for safe embarkation/disembarkation.	ALHW has already studied this aspect and submitted a Detailed Project Report for construction of a Deep Water Wharf of 150m X 20m on the lee side of Break Water to the Ministry of Shipping (Under Central Sector Plan) which is under active consideration. This will be pursued for sanction. <b>Action : CE, ALHW</b>
	Shore protection measures from Jetty towards Machi Basti.	ALHW will study & submit suitable proposals to A & N Administration. <b>Action : CE, ALHW</b>
