

Daring	Compensation for deaths due to swine fever outbreak	Pending the approval of the scheme already one unit has been provided on (50%) subsidy.
Kakana	Distribution of inputs	<ol style="list-style-type: none"> 1. Already 6 pig-lets and 100 hens have been provided. To overcome mortality in chicks, now grower birds will be provided in future consignments. Vaccination and deworming of pigs has been completed. 2. Keeping in view the remoteness one local boy will be trained and if approved will be taken on contract. 3. Community boar (male pig) can be provided for upgrading the local pigs, provided formal request is received.
Champin	Artificial insemination facility	Already available at Kamorta but response is very poor owing to non-rearing of cattle by the tribals. However, more motivation is underway.
	Department should have its own boat for inter-island treatment & emergencies.	Instead of having a separate boat, it is better to hire boats if rates/hr are approved by DC (C/N).
	Contract Worker/Staff in for-off islands /places	Proposal is already under consideration of Administration.
	Compensation for pig deaths due to swine fever outbreak.	Scheme for providing trio pig units is under consideration of administration.
