5) ADMINISTRATIVE POLICY : The policy of forcing the Private Enterprises on the innocent tribals, who has their own Cooperative Society and ability to handle all types of works/venture which emerge in Carnicobar, has to be stopped immediately and no private party should be allowed in Carnicobar for any work which the tribal can do and also at competitive rate.

6) LAND (RESIDENTIAL) PROBLEM : The population of Tribals in the last 50 years has grown fast, but with limited land/allotment they are facing great hardship. In spite of our appeals to the Authorities in this respect since last 22 years, no action has been taken to allot us land by the Administration for expansion, even where few families have settled in Little Andaman the land has yet not been allotted to them since last 22 years needs your immediate looking into.

The tribals of Carnicobar will remain ever grateful if you will kindly look into the above problems/difficulties at your earliest.

Thanking you,

Yours faithfully,  
For TRIBAL COUNCIL

  
ABERDEEN BLAIR  
CHAIRMAN & CHIEF CAPTAIN
