

SEMO. 4CR - P. 24-26/c

(44)

The Doc. relates to follow up action on the proceedings of the last meeting of HMAE. Held on 20.12.1980. The point with which we are concerned is -

Completion of Andaman Trunk Road. The committee of Anthropologists on the Janwa situation and Shompen situation has made certain suggestions on resumption of construction of ATR. Between 87 and 110 km on which, we have furnished our comments to the GOI vide no. letter of 8.2.81.

(45)

Para 2-5 of the no. letter of 8.2.81 could be taken as the latest position in regard to completion of Andaman Trunk Road which may be incorporated as it is in the statement of follow up action on the proceedings of the last meeting of HMAE. We may add that now it is left to the GOI to take decision on resumption of construction of ATR. Between 87 & 110 km.
