

I have added a last page to the minutes for further consideration by members who went along on 24/7/85. In the first instance the draft may be seen by PEAPND, who may also fill in gaps.

237

It will be a help if AC(TW) can take this personally to PE APND whereafter the file may be circulated among CF/DC (Andaman) / SP (AP) / ASI

The gaps in the draft report have been filled in by Sri Bhordway EE who accompanied the PE on his tour to the Parawa area on 24.7.85. Now, the draft report of the committee may be circulated among the members.

Instead of circulating the tour report, we may perhaps endorse copies of it to the members of the Watch Dog Committee because if the file is sent for circulation, it may get stuck for long and work may suffer.
