**4. OBJECTIVE :**

The Handicrafts Industries is providing employment to about 3000 persons in the Islands. Keeping in view the resources there is ample scope to promote a number of more cottage Industries in the sector which will provide gainful employment to unemployed youths. In fact in a place like A & N Islands which has constraints in electric power, water availability, geographical isolation, difficult weather and climatic conditions etc., handicrafts is a major thrust area, as far as promotion of Industries is concerned. Handicrafts units and Cottage Industries set up by the small and marginal artisans generally depend upon their respective states/U.T. Govt. for their marketing. Andaman & Nicobar Islands has handicrafts made out of ornamental Woods, sea shell, cane, bamboo and drift woods. For providing marketing assistance to the handicrafts and cottage industrial units, the department has set up two emporium one each at Port Blair and Car Nicobar.

The emporium at Car Nicobar was set up during 1986 to provide marketing assistance to the Tribal Crafts Persons of Nicobars group and also to make aware about the handicrafts made out of the Shell, Wood etc. among the local Tribal population and also make available the visiting dignitaries with the handicrafts of these Islands. This goal could not be achieved so far due to the fact that, the emporium is managed by only one
