

Annexure - III.2

MODEL SCHEME FOR MANUFACTURE OF BROOM STICK

Proposed project envisages for setting up of broom stick manufacturing unit at different tribal areas such as Nicobar Group Islands, Strait Island, Dugong Creek, South Bay etc.

By

it will manufacture about 5000 brooms per month.

Manufacture of broom sticks does not involve much investment. The materials (coconut leaves) are locally available in plenty.

With increase in population its demand is also increasing. The product may be marketed through existing shops and Consumers Cooperative Stores Ltd.
