I would like to solicit that I am making a submission before the Honorable President of India with the expectation the problems of these Islanders maintaining it beautiful and amicable relation unique in nature and watch worthy would we given full protection in regard to their fundamental rights in seeking jobs and in cases of allotments of seats since these islands lacking industrial development and the job opportunities thereof.

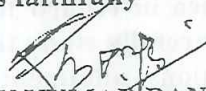

It would be pertinent to mention as on today around 95% Islanders became alcoholic the gift of ANNIDCO where the father of the nation Gandhi Ji was dead against the alcohol but where his advices stands. It's the shame at the part of the Babus responsible for allowing so many bars within the range of 100 mtrs around 5 to 6 bars. Initially, aged people i.e. above 35 to 60 used to take little to get ride off their exertion. But as on today around 30% of the female members including school going students from class V onwards started consuming adulterated liquor thereby reducing their life span in a most sophisticated manner is not the conspiracy than word? Your Excellency is requested to put yourselves in imagination, evaluate the manner the residents of Andaman & Nicobar Islands are dealt with. Is it positive? Your Excellency therefore requested to make an appropriate inquiry not through CBI but through defence intelligence equipped with Audio Video facilities so that you are acquainted with the whole episode of my submission.

Appropriate action in the public interest and in the greater national interest of the nation be taken and oblige the citizens.

Copy to:-

The Chief Secretary,
A & N Admn.,
Secretariat, Port Blair.

Yours faithfully
