Para-ix

This modification of 27(1) is not acceptable and the Administration would like to keep the Village Council plans/provision within the frame work of the second schedule.

Para-x

Our comments have already been given in 4(i)(b) as well as in (vii) above.

Para-xi

No specific suggestion having been made, the A&N Administration prefers to retain the Second Schedule para-1 (6) in its present format.

Para-xii

Accepted.

This may be done at the level of the Ministry itself by adding the two words "Preventing and" before the word "removing".

Para-xiii

Both exigencies have been provided to allow for flexibility in implementation of prohibition, or otherwise as the case may be, depending on the Excise Laws prevailing in the U. T.

Para-xiv

This provision 111 (1) may be read as under: "subject to the provision of this regulations and the rules made their under, the Lt. Governor may issue notification to....."instead of "the Deputy Commissioner may frame bye-laws to....." This should satisfy the observation of the Ministry of Tribal Affairs.

Para-xv

This suggestion is accepted and in regulations 112 the words "Every rule and every Bye Law made under this" should be replaced with "Any amendment to this". This may be done by the Ministry at its own level in the final draft already forwarded to it.

o/c

Yours faithfully,

Arvind Ray

(Arvind Ray)
Chief Secretary(i/c)
