

195

women, baby killed, two civilized men arrested, authorities in a quandary over arrest of murderer Jarawa man" published in the Echo of India dtd 14.1.2016 which speak the facts and circumstances that the Jarawa Tribal families need their proper rehabilitation as because of change in their social behavior and food habits since they have been enjoying mixed social atmosphere with the local non tribals after 1998.

3. The Jarawa policy notified in Dec 2014 need review immediately for which the same committee of the experts as constituted by the Central Govt vide MHA's Notification No. U-14040/24/99/AML dtd 21.7.2001 should be re-constituted so that it should go **through the implementation of the various directions contained in the said notified policy and decide further accordingly for the welfare of the Jarawa people and their peaceful existence and bring them at par with other civilized tribal community in this Ut.**
4. Situation demands that the Jarawa Tribals need proper civilized rehabilitation under the highly qualified and sensitive team of social workers (male/female), whereas, the AAJVA has been using the DRMs to deal this vulnerable tribal under insensitive bureaucracy being posted here since 1998.
5. Any further delay may invite more conflict between the Jarawa Tribals & local non Tribals causing irreparable loss to the both communities for which the authorities in Tribal Welfare dept. & AAJJVS shall be responsible.

Thanking you

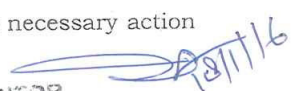

Encl. A/A

Yours faithfully
