Sub: - Submission of public grievances pertaining to Baratang Island-regarding

Respected Sir,

I would like to appraise the following few public grievance of Baratang Island for kind consideration and favourable action please:-

1. **Scarcity of water:** - The people of Baratang Island are being facing a lot of difficulties for want of water in the summer season which is very big problem for Baratang. Hence it is suggested that the Harvesting of rain water project or a Reverse Osmosis plant may be introduced in Baratang Island to avoid scarcity of water in the summer season.
2. **Inadequate power supply:** - We all are facing a frequent interruption of power supply from Rangat Bay power house especially in the rainy season frequently. So I suggest that the action may kindly be taken to upgrade the existing DG sets on hiring basis from private party for Baratang power house for uninterrupted power supply to the people of Baratang.
3. **Telecommunication problems:** - The residents of North and Middle Andaman as well as Govt. offices and private sectors are suffering very badly due to frequent cutting of OFC and land sliding regularly. Hence it is requested to may kindly be installed the IDR system at Rangat, Mayabunder and Diglipur as done in the past.
4. **Mining of Sea sand:** - The people using sea sand is been restrained by the Forest Department in this Island and the transportation of river sand from main land is very
