Respected Sir,

We are the authorized dealer of Maruti Suzuki India Limited. We have an authorized workshop at Garacharma, another at Nayagaon and we also have an authorized information center at Hawa Mahal Road, Rangat.

We would request your esteemed office to consider the following representation regarding our Inter-Island breakdown service vehicles.

We offer breakdown services to our Inter-Island owners of Maruti Vehicles. While offering our emergency services we are facing a constant difficulty while obtaining permit which takes one day and we can proceed to the spot only on the next day which is not only time consuming but it also builds up the anxiety of the person in distress. Sometimes there are breakdown when we have to spot repair the vehicle and tow it to Port Blair. We are not able to offer our emergency service in the truest sense of the term.

Sir, we request you to help us in this matter and enable us to extend our services with promptitude in case of emergency.

We are ready to comply with all the terms and conditions set forth by the Department.

Please find enclosed herewith a list of our vehicles which attend regularly to emergency breakdown services alongwith the photocopy of the relevant documents and as well as the ownership details of the vehicle and the phone numbers of officers who are responsible.

Thanking you

Regardsfully Yours

SK Nanda
