12. Secretary (STA) requested for considering the point regarding mandatory requirement of parking shed as pre-condition for grant of NOC for commercial vehicle. The S.T.A. agreed to take it up in view of wide public concern expressed during public dealing at various levels. It was unanimously agreed that the condition of requiring a parking space cannot be dispensed with, but the STA may have no concern with the question whether such space is covered with a shed/roof or not, because the concern of STA is that commercial vehicles are not parked in public place/roads. As such decided as follows:

- That parking space requirement will continue to be a condition precedent for grant of NOC for commercial vehicle, without however insisting on such space being covered with a roof or a shed.
- The Secretary (STA) shall devise ways and means consistent with legal provisions to ensure that the same space is not being shown as parking space for more than a vehicle.
