

Madhya Pradesh

It is observed from the Action Plan/Project Report that the health sector of the PTG's have not been given adequate coverage. The allocation under health sector should be to the extent that it takes care of the environment and health needs of PTGs. At least 10% of the flow of funds out of total flow to each PTG should be in health sector.

The estimated population figures and census figures for some of the PTGs example 'Kamar' has shown decline in its population figure. The reason for the decline and the steps taken to assert the decline should be mentioned. Similarly, in the Project Report, the population figure of Baigas has not been given separately rather it has been clubbed with Gondas. The Action Plan Report has not maintained uniformity while giving details of programme/scheme implemented/proposed to be implemented during VIII plan period. It should be with year-wise phasing. In the Action Plan Report pertaining to Baigas tribe the programmes and financial requirement from 1994-95 onwards it has been clubbed together.

Proposed provision for 1995-96 as per Annual Action Plan :

	<u>Agency</u>	<u>Proposed Amount(Rs. in Lakhs)</u>
1.	Abujhmarias	158.12
2.	Baigas	655.38
3.	Bharia	256.935
4.	Pahari Korwa	138.514
5.	Kamar	95.089
6.	Sahariya	334.046
7.	Birhor	47.765
	<hr/> TOTAL	<hr/> 1685.856 <hr/>
