

5. Please indicate the steps taken in consultation with tribal communities and voluntary agencies to ensure that tribals are saved from adverse effects to their ecology and way of life due to influx of tourists in the tribal areas.	Does not arise until the tribal area is opened for tourists.
6. It is reported that, at times, both domestic and foreign tourists take advantage of the innocence of tribals and their way of life and exploit them. What steps have the State Government taken to prevent such contingency?	Does not arise until the tribal area is opened for tourists.
7. In order to protect the economic and social life of tribal communities, inner-line regulation has been in force in some states of the North East. Does the State Government think that such a measure is required for some areas in the state, as for the erstwhile district of Bastar in Chhatisgarh?	N.A.
