

Srl. No.	ITEMS	Targets Achieved in TSP areas	Targets still to be Achieved in TSP Areras
1	2	3	4
1.	Distt. Roads (MNP)		
2.	Approach Roads to Tribal Basties (hamlets)		
3	Linking Roads to Ashram Schools / Hostels		
4.	Linking Roads to Community Health Centres (CHCs), Public Health Centres (PHCs), Sub-centres (SCs)		
5.	Linking Roads to markets (Haats)		
6.	Construction of Bridges/Culverts		
7.	Link Roads to Headquarters of Gram Panchayats and Block Panchayats		

21. The Pradhan Mantri Gram Sadak Yojna envisages connectivity by the end of the Tenth Plan period to all unconnected habitations (a) in the rural areas with a population of more than 500 persons through good all-weather roads and (b) with a population of 250 persons and more through good all-weather roads in the seven North-Eastern states, Sikkim, Himachal Pradesh, Jammu & Kashmir, Uttaranchal and the desert areas. Do you feel that there should be cent per cent coverage of tribal habitations by the end of the Tenth Plan period? If so, how much money would be required for the purpose?
22. Do you think that it is desirable to construct culverts and bridges over seasonal Nalas and streams even before completing the roads, so that tribals can ford them during the rainy season? Please give your suggestions.
23. As per the latest computation, what is the overall density of roads in your state and the density in tribal areas?
