	plantations Existing plantations of oil palm, rubber and teak to be phased out. No exotic species of fauna or flora to be introduced. Suitable guidelines and procedures to be developed for the purpose. ANIFPDC should be wound up as it was set up for commercial purposes	as it was stopped in 1985. The operation of the oil palm factory and rehabilitation plantations shall be adversely affected. No introduction of exotics is being done. The employees of ANIFPDC will have to be retrenched/ redeployed. This will increase the workload of the Forest Department
9.	Govt. Departments including Defence and PWD should be supplied fuel wood and other forest produce by the Forest Department and should not be permitted to collect from the forests	
10.	Complete ban on establishment of new wood based industries for next 10 years	No new wood-based industry is being established now.
11.	- Small scale wood-based units (saw mills) to be relocated within industrial estates or in locations contiguous to forest officers or convenient for the FD to monitor, within one year - Non-complying sawmills to close down - Saw mills to obtain license from FD within 3 months and maintain such records prescribed by FD - License to be renewed every year at the discretion of FD - Necessary rules, guidelines etc to be prescribed within 3 months	The functioning of the saw mills shall be regulated. Saw mills unable to comply with the conditions shall close down.
12.	No subsidy to be given to any wood-based unit	Some industries may close down.
