

19	removed within 6 months Post-1978 encroachers (except foreign nationals) to be allotted homesteads in revenue land and training and opportunity for self-employment. Necessary powers for eviction to be given to forest department. Action Plan to be prepared and implemented under the direct supervision, monitoring and control of a committee comprising of the LG, CS, PCCF and reputed NGOs. CS to file monthly report to Supreme Court. Islands to be declared as Inner Line area within 3 months and restrictions under Section 3 and other provisions of Environment (Protection) Act to be imposed. Entry to more vulnerable and forested areas to be restricted. Administration to issue identity cards in a time bound manner. Subsidized travel to the islands to be available only to the bonafide residents of the islands.	Administration.
20	Action plan to be prepared for conservation and protection of forests and got approved by MoEF. All unworked areas in Diglipur, Mayabunder, Middle Andaman and Baratang should be made into National Parks leaving a buffer belt between the NP and revenue settlements, for protection by village communities. Small islands declared as sanctuaries and NP to be consolidated into viable units encompassing the marine areas surrounding them.	The Administration has to take a decision in this matter. This will be done as per the recommendations of the Wildlife Institute of India. Declaring all the unworked areas as National Parks is impractical as some of them will be isolated patches or small pockets. Already 70% of the forest area is protected.
