

5

tourists who have sea-sickness, trip to Baratang by road will facilitate them to witness the Live Lime Stone Caves and Mud Volcano. Further more the tourists who visit these islands for 3 or 4 days may be benefited if they are able to come back to Port Blair in the afternoon around 2 PM which is possible only when they travel by road as that will enable them to see more places during short duration of their stay.

We may seek approval for obtaining permission for plying the Luxury Tourist Coach to and fro to Baratang on the same day from the Competent Authority. The Chief Secretary, AgN Administration is competent to accord approval in this regard. If approved we may request SP(A) District to extend permission in favour of the applicant's Tourist Vehicle bearing registration No. AN01C 5675. It may be noted that the car is on its way to the airport for approval.
