Dear Sir

The Jarawa

I write as a member of Survival International and as a lawyer to protest against the possible settlement of the Jarawa.

I believe that the cases of the Onge and the Great Andamanese show that when tribes are forced to settle or resettle, this results in severe disease and social problems.

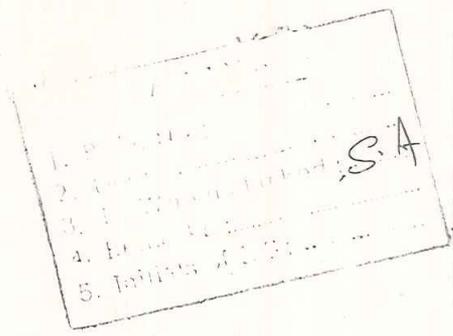

Just as you and I have the right to decide upon our way of life, the Jarawa have a right under international law to make their own informed decisions about their way of life and the right to own their land.

I ask that you do what you can to protect these rights.

Yours faithfully

Ann McCabe
