

Household articles are some taken away by Jarawa.

: To get awareness about the implication do's and don't's.

3. Suggestions to address the Emerging issues / problems

Other Suggestions: (i) The Buffer Zone has created tensions amongst the residents of the affected villages. (ii) At the present day, the Jarawa are friendlier with the residents and now they speak Hindi as a communication of language with the residents. (iii) The Jarawa should be let free and tour the Capital, Port Blair so that they be able to understand the advanced world. (iv) Separation/ defining the line of Buffer Zone: Is like disallowing the Jarawa Tribal not to enter the new world. (v) **PAT Regulation**- should be more strict and course of action against the trespassers be immediately dealt. (vi) The Jarawa Tribes is the only informer and report to the Police and other villagers about the foreign poachers along side the Western coast of these Islands. They are a good source for security reasons. (vii) We may educate the Jarawa Tribal about the importance of adaptation to their land and simultaneously teach them the advanced world.
