

The Jarawa tribe is affected to some extent because of the road accidents on the ATR Centres located in a non tribal areas and Port Blair for their treatment in case the insitu treatment of minor disease is not enough to save the life of the Jarawas. The vehicles used for the evacuation of the Jarawa patients also move on the ATR. The convoy system for the vehicular movement on the ATR scrupulously enforced will reduce the negative impacts of the ATR on the Jarawa tribe.

The reply for the item No. viii above could be as under.

Tribe is group of people, families, clans or an ethnic community having a distinct or common culture often occupying a territory.

If approved, we may confirm the Forest Department in the above lines. A draft letter is placed opposite for perusal and approval please.
