

to cooperate in such effort of the Administration. and also to teach the local population in that regard any gift from them, whether food, dresses or otherwise or to mix with the local population and to be accepted out of their habitat for mixing with the local population or if they do come out to discourage them to beg steps on war-footing to discourage the Jarawas to come said purpose it will be necessary to take immediate before the policy decision is taken. For the above and thereby being threatened with extinction even with disease from the local population of the Islands steps to prevent the Jarawas from being communicated our view it will also be necessary to take immediate in agreement. Pending such formulation of policy, in areas on which the parties and the experts seem to be poaching, intrusion and encroachment in the Jarawa the local Administration to immediately prevent the term and mid term steps by the Central Government and policy decision, it will be necessary to take short consuming and, therefore, pending such formulation of of such a policy decision, no doubt, will be time The aforesaid process for the purpose of framing

and scientific study and survey. ing such opinions of the experts, holding field work & Nicobar Islands and after deliberating and discussing of Jarawas or other indigenous tribes of the Andaman of the Jarawas and already have worked on the problems
