Village co-operative societies which
in turn sell the commodities
is Apex Tribal Societies. Also the
of above, there seems to be an
scope is leave out any forest
diversion / ranges to private parties/
contractors for trading & forest
commodities.

Para 2-12

there are two central co-op

Societies, one each at Cal Nicobar

and Mam Covey. These Apex Societies

market the commodities like coconut

and Belliant is organized is soon

un-organised agencies. TRIPED is

an autonomous organisation functioning

under the central govt. So it could

be the central of tribal with regard

to marketing their agricultural products

and getting them remunerative prices.
