	<b>Supply of power tillers</b>			
1	Supply of power tillers and implements/accessories to societies/Tribal Councils etc..	Nos.	5	0

##### 5. Reasons for shortfalls in achievement.

The Tribal sub plan is mainly targeted for Development of tribal area's of Southern Group of Islands. After Tsunami, the GOI has approved the rehabilitation package for southern group of Islands, which covers most of the components incorporated in the Annual Tribal sub Plan 2005-06 of this sub sector. Since the tribal farmers are getting benefits directly under RGRP Programme, the farmers of the said area not came forward to take benefit of plan scheme. In the current plan period also the achievement will be less as the RGRP programme is still in force.
