ANDAMAN AND NICOBAR ADMINISTRATION
SECRETARIAT.

10
Port Blair, the 9th Sept., 1993.

To

The Executive Engineer,
Port Blair North Division,
APWD, Port Blair.

Sub:- Providing kitchen in the Nicobari
Guest House under construction at
South Point, Port Blair.

Sir,

Please ref recall to the discussion during the inspection of the Nicobari Guest House under construction at South Point in connection with providing kitchen to the same. The joint inspection of the Guest House by the Executive Engineer, Port Blair North Division (Shri Balachandran), the Assistant Engineer, (Shri DK Dass) and the undersigned was made during the last month.

2. During the inspection it was discussed the feasibility of providing the kitchen to the Guest House under construction was discussed. During the discussion it was emerged that there could be two course of action (a) carving out a kitchen in the ground floor of the Guest House without major alteration in the existing design; and (b) providing a separate block for kitchen attached to the Guest House.

3. The first option in which very little alteration is required and may not involve extra expenditure may be given preference, because the second option would not only involve additional expenditure but would not be suited to the Guest House that is being constructed. That is to say the location of kitchen block in respect to the main Guest House block may affect the general architectural design and look.

4. This issue was discussed in the chamber of Development Commissioner today in the plan discussion alongwith the Chief Engineer, APWD. As such
