Apart from the fact that the estimate has been *sent* very late, also linked are the issues of maintenance and the authority which is supposed to maintain the guest house in this case. The guest house is yet to be completed. Please ascertain the likely date by when the guest house is proposed to be completed. It is understood that the cost for the same has also exceeded the sanctioned estimates. The revised estimates, if not received also need to be called for.

(120)

Would it not be possible to utilise the funds provided for purchase of *part of* furniture etc which may be procured through CCS Ltd or the Industries Department during the current year itself?
