To

The Director **TRIBAL**
Directorate of Family Welfare

Sub: Hospital based study on Gynaecologic Cancers in ANIIMS and G.B. Pant Hospital including Non Tribals and Tribals.

Respected Sir / Madam

This is for your kind information that we, the faculty of Obstetrics and Gynaecology department of G.B. Pant Hospital and ANIIMS are conducting a retrospective case record study of women with gynaecologic cancers over the last 3 years. The patients include both non-tribal and tribal (Nicobarese and Ranchi ethnic group).

This study is only a case record analysis of patients managed at G.B. Pant Hospital and doesn't reveal their identity and doesn't require any visits to the restricted tribal areas. The study was started after obtaining due permission of institutional ethics committee.

Apparently permission from the tribal welfare department would not be necessary for the publication of the research work in the academic journal, since the study doesn't require going to tribal areas nor direct interaction with tribal population.

Sir, you are requested to kindly confirm the above position.

Thanking you

Yours faithfully

Manju Mehrotra
