Sub: Permission for access in Jarwa Reserve area of NH-223 for carrying out
Remedial measures-reg

Sir,

A batch consisting three students of final year students of B .Tech (Civil), of this Institute, have undertaken an academic project on landslide modeling as part of their academic requirements to complete their degree. For the landslide analysis of NH-223 between Jirkatang camp No-7 and middle strait, Geotechnical investigation has been already carried out on 19/09/2017. For the next phase of the project, the implementation of remedial measure is proposed to be carried out at specific sample area from where the soil sample has been collected previously (i.e. from 9km from Jirkatang check post).

In this connection you are kindly requested to accord necessary permission to access the reserve area on Saturday, the 10th March 2018 along with necessary police escort. The details of the students and staff that require permission along with the equipments carried are given as under:

Team Members

Mr. K. Hamza, Lab Technician
Amar Singh, Student(14TA1602)
T Koteswar Rao(14TD1626)
Sanjay Kumar(14TA1628)
