

Children's Clubs:

Butterflies has initiated formation of children's clubs where in children from the activity centres participate. In these Children's club meetings (once in 15 days) children discuss about the issues related to activity centre, health cooperatives, newspaper, library and other activities and problems related to Children's Development Centre .

Educational support Programme:

It offers educational support to the children in every CDC across the islands. The support class helps the children in completing their school curriculum, builds on their general knowledge, grammar, reading & writing skills while generally growing up in a team environment which is extremely important for success in the highly competitive age. Educational support programme also included sessions on general knowledge, drawing and quiz.

Cultural and Sports activity:

Sports and cultural activities conducted by the Butterflies during initial intervention has enhanced the speedy recovery of children from trauma and shock of tsunami and facilitated their return to normal life. Cultural program was conducted to create awareness on issues effecting children through plays, song, dance, stories, poems, jokes etc.

The programme could deliver message to the community and create awareness regarding
