

TOPICS COVERED DURING THE WORKSHOP

CAR NICOBAR → the workshop focussed on Typhoid, Jaundice, Diarrhoea, Tuberculosis, Chikunguniya, Diarrhoea, Malaria, Leprosy, Hepatitis, Leptospirosis, Leprosy and personal hygiene.

Herbarium Techniques

Children have collected a considerable number of herbal medicinal plant samples and documented their local/colloquial names, their usages and methods of use. They have collected around 409 specimens of herbal plants all through ANI.

These Health related activities could create awareness at community level, negotiate with the health systems and worked towards making the government machineries accountable to provide optimum health services at the community level. Government officials have regularly participated in health education programmes and extended support by providing BCC materials. Gradually children have been raising health related issues amongst others in Bal Sabhas and children's club meetings at their CDCs.

BUTTERFLIES IN BHARAT NIRMAN PUBLIC INFORMATION CAMPAIGN AT CAR NICOBAR.

Bharat Nirman Public Information Campaign was organized by Public Information Bureau, Govt of India in Car Nicobar from April 7th to 9th 2008 at Bishop John Richardson stadium, Tamaloo to spread the awareness on development activities of government. Butterflies was the only NGO that had participated in this campaign to generate awareness on 'Child rights'. Butterflies placed a stall to exhibit the programme activity being done in Andaman & Nicobar Islands since post Tsunami. We also generated awareness on Child rights and demerits of substance use among children, parent, teachers and general public by displaying banners, distributing pamphlet and video shows. The dignitaries visited our stall of Butterflies were the Lt.Governor Lt.General(Retd) Bhopinder Singh, Shri. Manoranjan Bhakta, MP, Shri.T.Sreekanth, DC, Nicobar, Smt.Kesar Meshram, Member, IIPA, Nagpur, Shri. Jaiswal, Sr Media & Communication
