Email applications will not be entertained.

The Assessment Process

The ANTRI Research Committee will review applications for ethical clearance. Each application will be assessed by the Research Advisory Committee, which then makes recommendations to the ANTRI.. All research outcomes funded or approved by ANTRI must be deposited with the institute.

Important Dates

- The application can be made throughout the year.
- All applicants will be informed of the success or otherwise of their applications three to four months after all the papers and required information has been submitted.
- Funding for successful applicants will be available from a specified time and reports will be mandatory on the progress of work.
- Administration has the right to terminate the permission to continue research work if the researchers' work is found unethical and unacceptable,

Please note that ANTRI will not fund:

- Publication or production costs unless the manuscript has been reviewed internally or a reputed publisher expresses interest;
