Port Blair dated the 15<sup>th</sup> September, 2016.

Respected Sir,

This is to inform that the farmers of Campell Bay area transport their surplus agriculture produce like vegetables to retailers of Car Nicobar and Kamorta Island. These farmers are facing difficulties in recovering money for their produce from retailers functioning in tribal area.

In this regard, farmers have represented to the Agriculture Department that they may be permitted to enter tribal area to sell their produce directly to the people of Car Nicobar and Kamorta Island themselves and recover money. May kindly suggest if this will be permissible given the prevailing rules and regulations.

With regards,

Yours Sincerely

R. Menaka
