

exigency. Then there is also the prevalence of malaria. Onge's have biological abnormalities affecting the reproduction. In the Master Plan (1991-2021) of Andaman & Nicobar Islands all matters relating to PTG's of this island has been covered. The plan programmes of each tribe has been separately given. However, the report should separately indicate the action plan on health, education and economic development sector. The Master Plan does not contain details of population figures of all the PTG's since 1961 census year. Further, the health and education status of PTG has not been given. The Action Plan must also in view of their experience and survey indicate any change which would improve the overall life styles of PTG's.

### Gujarat

There are three identified PTG's viz., Kotwalias, Kathodis, Kolghas, Padhars and Siddis. the Major Sector wise break up of outlay during VIII plan period (1992-97) for each primitive group is as follows :-

S.NO	NAME OF THE MAJOR DEVELOPMENTAL HEAD	KOTWALA	KATHODI	KOLGHA	PADHARS	SIDDI	TOTAL
1	Agriculture	22.08	3.96	38.90	23.90	7.00	95.84
2	Irrigation	26.60	6.00	44.60	28.30	8.80	114.30
3	Soil Conservation	3.89	0.69	6.87	4.21	2.30	17.96
4	Animal Husbandry	48.12	8.49	84.94	50.00	20.42	221.97
5	Fisheries	17.00	3.40	30.08	18.64	10.04	79.16
6	Forest	7.10	1.71	11.90	6.55	3.96	31.22
7	Electrification	2.65	0.55	4.60	2.88	1.55	12.23
8	Employment/Training/Cottage Industries	57.39	10.13	101.27	60.00	25.90	254.69
9	Education	18.29	5.49	18.95	19.33	11.19	73.25
10	Health	1.23	0.50	2.35	1.40	0.80	6.28
11	Water Supply	10.14	1.78	17.90	10.00	6.95	46.77
